

# RW's Fishing Resort Newsletter

September 2024

As the crisp autumn air settles over the stunning landscapes of the Kenai River, it's time for us to bid farewell to another unforgettable season. This year we shared many great memories, we had great celebrations with friends and neighbors, many fish were caught, and the beauty of the river was enjoyed by all.

Though our resort will be closed until next season, we're already looking forward to welcoming you back in the spring. Until then, we wish you tight lines and happy trails. May your winter be filled with warmth, and may you dream of the rivers and lakes that await your return.

Thank you once again for being a part of our Kenai River family. We'll miss you and look forward to reuniting when the ice melts and fish are coming up the river again.
