

August at RW's Fishing Lodge

The Silvers Are Shining!

August on the Kenai River means one thing at RW's — **silver salmon!** The coho run has been healthy, and we've been having a fantastic time chasing these hard-fighting fish.

Also known as coho salmon, silvers are known for their bright silver sides, aggressive strikes, and powerful runs. Most weigh around 8–12 pounds, but they can get even bigger! They may not always be the biggest salmon in the river, but they sure know how to make a fishing trip exciting.

Between bent rods, big smiles, and plenty of fish stories, August has been another great month at the lodge. **The silvers are here, and they're putting on a show!**

A big thank-you to everyone who came out to fish with us. We love sharing Alaska, the Kenai River, and all the fun that comes with it!
